Capital Improvements

Nurturing Today, Growth For Tomorrow

In 2015, the Polish Center raised the money necessary to satisfy its mortgage. Now that our beloved Polish Center is over 20 years old, it is in need of some major capital improvements. These include age-related repair and improvements to our roof, windows, HVAC, patio, kitchen, parking lot and grounds.

Like many other non-profits, the impact of the COVID-19 pandemic created a financial strain on us as we lost all of our major fundraising activities and events. Through this capital campaign, we are reaching out to the greater community to help us raise the funding for these important projects so the Polish Center of Wisconsin can continue as a proud home to promote, enrich, and educate the community in Polish culture and heritage

Putting Our Mission And Goals To Work

The Polish Center's Facilities Committee and Executive Committee have completed an exhaustive study into the PCW's current repair and maintenance status. The report assisted in generating a list of expenditures for the near future. The list includes repairs, maintenance and growth items to enhance the longevity, marketability and added competitiveness of the Polish Center.

- **Repair/Replace all Asphalt Surfaces, Damaged Curb and Gutter and Catch Basins, Side Walk Stones/Repair and Reset Retaining Wall**
- **Renovate The Patio**
